## **TYLER CAMERON**

*Contestant on ABC's "Dancing with the Stars"*

Real estate is in Tyler Cameron's blood. He grew up in Jupiter, Florida, with a real estate agent for a mother and a general contractor for a father, ultimately finding his own way to blend those two worlds. Today, he runs Image 1 Construction, his construction company, while also building a company with his fiancée, Tate Madden, flipping and designing homes. Cameron leads the construction and flips, while Madden brings each space to life through design. In 2025, Cameron earned his real estate license and joined SERHANT as an agent in Palm Beach County, Florida, bringing his passion for homes, construction and real estate under one roof.

Most recently, Cameron served as a judge on HGTV's "Bachelor Mansion Takeover" and starred in Prime Video's "Going Home with Tyler Cameron." The Emmy®-nominated series followed him back to Jupiter to renovate homes for locals while working toward his most personal project: restoring his late mother's house. That same instinct for creating — homes, companies and community — carries through everything he does. Alongside Madden, he is also developing TINKR, a modern tool brand centered on DIY and empowering people to feel more confident creating a home they love. Cameron serves as head of Product, while Madden is head of Creative. His entrepreneurial interests also extend to health and wellness as an owner and active partner with 3Natives, a healthy fast-casual franchise in South Florida.

Cameron co-founded the Andrea C. Cameron Foundation with his brothers in honor of their late mother, providing scholarships to students throughout the Palm Beach County community she loved. A former college athlete, he remains deeply connected to fitness and community through the Celsius Fitness Tour, where he leads workouts nationwide, as well as a monthly run club in his hometown.

Cameron first appeared on national television in 2019 on Season 15 of "The Bachelorette" and has since built an impressive career that extends far beyond television, spanning entrepreneurship, construction, real estate and design. His other media credits include ABC's "Extreme Makeover: Home Edition," Fox's "Special Forces: World's Toughest Test" (which he won), "The Real Dirty Dancing," Netflix's "Good on Paper" and an appearance on "Saturday Night Live."
